The 18th IEEE International Conference on Environment and Electrical Engineering (IEEE EEEIC18), is an international forum for the exchange of ideas and information on energy systems. The Conference provides a unique opportunity for designers and people from industry to interact with manufacturers, energy utilities people and university researchers and to discuss a wide variety of topics related to energy systems and environmental issues. The ever increasing awareness of the environmental concerns and the intensive international efforts to reduce emissions of greenhouse gases, stimulate to offer the best contributions towards achieving the goals of renewable energy diversification and sustainable development. IEEE EEEIC 2018 is the 18th edition of the Conference and is one of the European largest, longest-running, professional networking and educational event. The conference has been technically co-sponsored by IEEE since 2008 and by EMCS, IAS and PES since 2015. The 2nd IEEE Industrial and Commercial Power System Conference Europe (I&CPS Europe) is the second edition of a conference organized by the department I&CPS of the Industry Application Society (IAS-IEEE). The scope of the Industrial and Commercial Power Systems Department includes all matters within the scope of the Industry Application Society relating to the technology of electric power generation, transmission or distribution in industrial, commercial and institutional applications, and within that segment of industry associated specifically with rural or agricultural applications. The scope also includes the creation of related technical standards governing such applications. The objective of I&CPSD shall be the advancement of the theory and practice of engineering as it relates to design and management of electrical power systems and comfort conditioning systems within industrial plants, commercial buildings and institutional facilities, and electrical power systems that serve primarily agricultural areas.

IEEE EEEIC18 - I&CPS Europe is sponsored by AEIT - Italian Association of Electrical, Electronics, Automation, Information and Communication Technology. Accepted and presented papers are submitted to IEEE Xplore. and will also be submitted for indexing through INSPEC®, EI’s engineering information index, COMPENDEX®, and ISI Thomson’s scientific and technical proceedings®, ISTRIP®/ISI proceedings. The Conference proceedings have also been indexed by Scopus since 2010.

IEEE EEEIC18 - I&CPS Europe will be held in June 12-15, 2018 in Palermo (Italy).

Accepted and presented papers will be considered for IEEE Transactions on Industrial Applications.

The best papers will be selected by a technical committee for publication in the Journal: MDPI Energies, MDPI Sustainability and Springer International Journal of Energy and Environmental Engineering.

**Call For Papers**

**Submission of extended abstracts:** January 15th, 2018

**Notification of acceptance:** February 28th, 2018

**Submissions of full papers:** April 15th, 2018

**End of early registration:** May 1st, 2018
SUBMISSION PROCEDURE
Authors are invited to submit original papers in the areas aforementioned. Prospective authors should submit an extended abstract (2/3 pages, 2 columns) by January 15, 2018. The abstracts should clearly explain the originality and the relevance to the fields, and should be uploaded in electronic format to the website of the symposium. The guidelines are available on the website http://eeeic.eu/. All submitted abstracts will be evaluated by a peer review process. Authors whose abstracts are accepted for presentation will be requested to provide the final full paper (4/6 pages, 2-column in IEEE format) by April 15, 2018 combined with a registration for each submitted paper. For authors from industry typical paper length may be reduced to 3 pages. Poster sessions and special sessions will stimulate more in depth discussions on some specific and relevant topic.

CALL FOR SPECIAL SESSIONS
Prospective organizers of special sessions should send their proposals via email to the Special Sessions Chairs, F. Bisegna and G. Zizzo, at the addresses fabio.bisegna@uniroma1.it, gaetano.zizzo@unipa.it. Special sessions are scheduled for one-quarter day (at most 5 speakers) / one-half day (at most 10 speakers) and are held during the Conference. All special session papers are peer reviewed through the same process as all the other submitted technical papers.

IMPORTANT DATES
Dec. 15, 2017: Special Session Proposal
Dec. 31, 2017: Special Session Acceptance Notification
Jan. 15, 2018: Extended Abstract Submission
Feb. 28, 2018: Extended Abstract Acceptance Notification
April 15, 2018: Full Paper Submission

WORKING LANGUAGE
The working language of the conference is English, which will be used for all printed material, presentations, posters and discussions.

SYMPOSIUM VENUE
The conference will be held in Palermo, Capital of Culture 2018, at the University of Palermo (http://www.unipa.it/). The conference venue is located close to the city historic centre, very close to the UNESCO Arab-Norman Heritage Sites, including the Cathedral and just a step away from Palazzo dei Normanni (the most ancient royal palace in Europe) and where we find the famous Cappella Palatina. The first weeks of June are the best time of the year to visit Palermo due to the climate warm and sunny. Early hotel reservations are very recommended. A list of suggested accommodations, close to the conference venue, will be published on the website.
