Call For Papers

SPECIAL SESSION

BLOCKCHAIN FOR ENERGY

Organized and chaired by: Mr. Fabien Imbault, cnam.fr - LIRSA laboratory (France)

Contact email: fabien.imbault@gmail.com

Objective and topics: Blockchain has become popular as the technology underlying bitcoin transactions. However its applications reach a large number of economic sectors, including energy. The goal of the special session is to present active research in the field of blockchain applied to energy grids.

The suggested topics are (but not limited to):

- Technological aspects : Distributed ledgers / smart contracts / Internet of things / security and trust;
- Applications to energy: micro grids, smart grids, electric vehicles, green certificates, decentralized energy markets;
- Feedback from existing proof of concepts;
- Impact on business models for utilities.

All the instructions for paper submission are included in the conference website:
